If we have joint winners on any of the prizes above, it will go to a count back. A count back system will work on the most 9s, if that is equal again it will go onto most 8s and so on until there is a winner.

Terms and condition can change at any time by Management without notice.

**Double points Round**

If you are certain you can pick 9 winners you can select that round to be your double points round. If you get 9 correct tips you will get double points for that Round. You have two chances during the year to select your double points round. It must be used during the season. If you do not get nine correct you will get double points for the selected winners that you have chosen correctly.

**Knockout Competition:** Starting from Round 5 all tipsters will get the chance to win \$150 venue voucher. Tipsters will choose 1 team they think will win (CERTAINTY OF ROUND) in that round, but the catch is they can't choose that team for the remainder of the season if they win in that round. The following round another team MUST be picked and if that wins you continue until you pick a losing team. The entrant who is left standing at the end will win \$150 venue voucher.
